EXPERIENCE

Junior Developer – Data & AI Program

Endava – Cluj-Napoca, RO

Feb 2026 – May 2026

- Selected for a hands-on **Data & AI** program for enterprise clients; built and optimized **ETL data pipelines**, **machine learning workflows**, and **cloud-based AI applications** with **Python** and **SQL**.
- Worked with cross-functional teams in **Agile/Scrum** to translate technical data into business impact.

Frontend Bootcamp

Betfair Romania Development – Cluj-Napoca, RO

Oct 2024 – Dec 2024

- Completed an intensive **frontend** program in a professional engineering environment, implementing **responsive UI** with **HTML/CSS**, **JavaScript**, and **React** using maintainable, reusable component patterns.

Software Engineer Intern – Flex-Space

Lasting Software – Timisoara, RO

Jul 2024 – Aug 2024

- Built **responsive UI components** and refined UX flows for the Flex-Space product in an **agile** team; wrote technical documentation for delivered features.

PROJECTS

Ecommerce Clothing App

Full-Stack | Personal Project Code

- Built an end-to-end shopping platform (listings, authentication, cart, order processing) with **Next.js**, **Spring Boot**, and **PostgreSQL**, exposing a relational schema through a **REST API**.
- Integrated a custom **AI chatbot** for product inquiries and a delivery-tracking demo with simulated real-time order status updates.

Pravalia lui Paul Clothing Store

Secure E-commerce | Personal Project Code

- Developed a scalable platform with **role-based access** using **React**, **Spring Boot**, and **PostgreSQL**; added **Stripe** payments, **PDF invoices**, **XML export**, and real-time **WebSocket** features.

AI Store Chatbot Workflow

Generative AI | Data Integration Code

- Built an **n8n** chatbot workflow that uses the **OpenAI API** for intent extraction and **conversational memory**, querying **SQL Server** with parameterized queries for live stock and price data.

Recipe Finder

Mobile AI App Code

- Built a **React Native (Expo)** app that generates personalized recipes with **generative AI** and **prompt engineering**.

SUMMARY

Full-stack developer and Computer Science graduate with experience at **Endava**, **Betfair Romania Development**, and **Lasting Software**. I build responsive, design-driven web apps with **React**, **Next.js**, **TypeScript**, **Java**, **Spring Boot**, and **PostgreSQL**, backed by **SQL**, **Python**, and **ETL** skills from Endava's Data & AI program and practical **generative-AI** integration.

SKILLS

Frontend: React, Next.js, TypeScript, JavaScript, Redux, HTML/CSS, Tailwind CSS

Backend & Data: Java, Spring Boot, REST APIs, Python, SQL, PL/SQL, PostgreSQL, SQL Server, ETL

AI & Automation: Generative AI, OpenAI API, Prompt Engineering, LLM Integration, n8n, ML Workflows

Design: UI/UX, Figma, Prototyping, Design Systems, Illustrator

Tools: Git, GitHub, Agile/Scrum, Jira, Miro, IntelliJ, WebStorm

EDUCATION

M.Sc. Management and Engineering in Business

Technical University of Cluj-Napoca

Oct 2025 – Present

B.Sc. Computer Science and Engineering

Technical University of Cluj-Napoca

Oct 2021 – May 2025

High School Diploma

National High-School Decebal Deva

Sep 2017 – Jun 2021

LANGUAGES

English: Fluent

Romanian: Native

German: Basic
