PROJECTS

Full-Stack Ecommerce

Personal Project

- Developed a comprehensive ecommerce platform featuring a custom **Chatbot** to assist users with product inquiries and site navigation.
- Engineered a **Delivery Tracking Demo** that simulates real-time order status updates, providing a visual representation of the logistics lifecycle.
- Built the backend infrastructure with **Spring Boot** and **PostgreSQL**, designing a relational schema to handle complex order processing and user sessions.
- Created a dynamic, responsive frontend using **React**, focusing on a seamless transition from product selection to checkout and delivery monitoring.

SKILLS

Frontend

React Next.js TypeScript JavaScript HTML/CSS

September 2017 - June 2021

ABOUT

I am passionate about advancing my career in the IT industry, with a strong focus on UI/UX and frontend development. My creativity and innovative mindset drive my love for web design, which I honed during my internship. I'm excited to leverage these skills to contribute to the ever-evolving landscape of digital solutions and create impactful user experiences.
